

Community Investment

We will focus our Community Investment support on viable solutions that are well-aligned with our mission and values. To ensure ongoing, equitable access to resources, knowledge and opportunity, especially in communities of color, the Foundation presents the WeanFolio.

A vital piece of our grantmaking, capacity building and community building efforts, the WeanFolio is an efficient tool that allows you to share a snapshot of your organization. The WeanFolio is stored online and once created, can easily be accessed to share updates of leadership, programs, reports, or other important information.

While not an application, all WeanFolio submissions are reviewed by Foundation staff to determine our next level engagement.
