

Share the Learning, March 19, postponed.

Annually, at the close of the grant period, Neighborhood SUCCESS grantees share successes and key learnings from their projects with their peers. We know the tremendous amount of work that program organizers and volunteers devote to preparing for their capstone event and we will reschedule when feasible.

Grantee Orientation, March 24, cancelled.

The Wean Foundation funds up to 30 grassroots grants each year. The orientation outlines the program staff/grantee relationship and provides support for project implementation. We will ensure that grant awards are disbursed according to the original timeline. Alternative means of delivering the orientation are forthcoming.

Emerging Leader, InterMISSION, March 31, postponed.

A yearlong mission to engage program alumni in focused reflection, personal and professional development and community building. We look forward to rescheduling in order to continue these enriching conversations and opportunities to step back, center and activate the talent, wisdom and passion of these leaders.

Race Equity and Inclusion Phase I Training, cancelled.

An approach designed for leaders and organizations who want to proactively end and address racism, both in their organization and in the community where the organization is working. Until otherwise noted, all other 2020 REI workshops will take place as scheduled.

Conference Space, General

For the foreseeable future, the Foundation will not be offering its conference rooms to associates or the public. Each organization must make their own decision on how to respond to concerns about COVID-19, and we feel it our responsibility to take precautions to protect our team, partners and friends.
